

terrafiniti®

Sustainability fundamentals

Develop insight, inspire and build a better business

Why take part?

Make sustainability a valuable part of your business by building staff understanding and skills.

Understand - how to identify and prioritise environmental and social issues and their business relevance.

Develop - best practice to reduce business costs, enhance relationships with customers and suppliers and reduce impacts.

Engage - build understanding and buy-in from colleagues.

Who is it for?

- ✦ Operational staff responsible for delivering and supporting sustainability and CSR commitments.
- ✦ Management teams looking for a grounding in sustainability.
- ✦ All main business roles including operations, procurement, communications and marketing.

What will you get out of it?

- ✦ Understand terminology and gain the confidence to discuss CSR and sustainability issues.
- ✦ Put CSR and sustainability in a business context - as sources of risk, opportunity and value.
- ✦ Understand what good practice looks like.
- ✦ Identify your ambition - what you want to achieve. or
- ✦ Identify your material (priority) issues.

“Terrafiniti... have been instrumental in ensuring that I have been able to deliver value and realise new business opportunities for my organisations and their respective client bases.”

Jonathan Quigley, WWF International, World Economic Forum

Intersnack

About Terrafiniti

Terrafiniti provides expert advice together with innovative and practical sustainability services. Our mix of strategic insight and operational emphasis is a key strength that helps align everyday practice with business priorities.

With over 50 years collective experience, our two partners have provided advice to some of the world's biggest companies, global NGOs and national and international institutions.

From 2005-2010 we designed and delivered WWF International's One Planet Leaders global executive development programme.
